

Community of HOPE Impact Report 2020

Transforming Lives with Hope and Dignity

Our Mission

To build hope and healthy families through a helping hand program of structured housing. Allow families with children to remain together in a safe and decent living environment so that they may grow strong, become self-reliant, transform their lives, and crush the cycle of homelessness and poverty.

Homelessness Does Not Know a Gender, But Sometimes Resources Do

By necessity, many resources designed to assist the homeless are divided. (women only shelters, men only shelters, shelters for youth, etc.) However, this will often create barriers to access for parents with children around the age of 12. At that point, most shelters will require that the family split between males and females for the safety of the children.

Community of Hope provides an extremely important opportunity: for families to stay together. This helps to reduce trauma to the entire family system - especially the kids.

"We had no one, nowhere to go, nothing. We lost it all. You gave us back hope. It was a daily struggle, but worth every minute of it. The kids are back in school, my husband and I both have stable jobs and we are moving in the right direction every day. Community of Hope guided us in every direction we needed."

- T & S, the Mom & Dad of three kids

92% of clients that entered into Safe Overnight Stay (SOS) program without insurance left with coverage for them and their families

We envision a world where every single family, no matter its structure or size, has a safe place to call home and we're starting here in Brevard County. It is through the support of the entire community - partner organizations, local landlords, houses of worship, and the community at large - that we are able to fulfill this mission.

We need you... and so do they.
